1. Upon further consideration and in light of applicant's amendments/remarks, this application contains claims directed to the following patentably distinct species of the claimed invention:

Species I - FIGS. 1-3, corresponding to claims 1-4 and 8-11.

Species II - FIG. 4, corresponding to claims 5-7 and 12-13.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over

Art Unit: 2652

the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. During a telephone conversation with Michael E. Noe, Jr. on 29 May 2005 a provisional election was made without traverse to prosecute the invention of species II, claims 5-7 and 12-13. Affirmation of this election must be made by applicant in replying to this Office action. Accordingly, claims 1-4 and 8-11 are withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to one or more non-elected inventions/species.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

5. The application has been amended as follows:

IN THE CLAIMS:

This application is in condition for allowance except for the presence of claims 1-4 and 8-11 to one or more non-elected inventions/species without traverse.

Accordingly, **claims 1-4 and 8-11 have been cancelled.**

IN THE TITLE:

The title has been amended to read as follows:

--HARD DISK DRIVE WITH DISK CLAMP INNER WALL
ENGAGING BEARING SLEEVE OUTER WALL--.
